Chartboost - adapter info

Compatibililty

Network	Bundle version	Third party SDK version	Fyber SDK version	Unity Engine version
Chartboost	6.5.2-r2	6.5.2	8.4.0 +	5.4.1f1

Important

- **The Chartboost Mediation bundle (from version 6.4.0-r2) adds support for Creative Controls. Please note that this bundle is not backwards compatible with previous SDK versions, and that you need at least SDK version 8.4.0 to use this bundle.**

- **Chartboost 6.5.0: Support for iOS 6 has been dropped. iOS 7.0 is the minimum supported iOS Version.**

Example parameters

- **name**: `Chartboost`
- **settings**:
